## RE: California Proposition 65 Statement

Dear Valued Customer,

This document is to inform R&G Springs Co. customers that products manufactured by R&G Springs may contain chemicals which are listed in California's Safe Drinking Water & Toxic Enforcement Act of 1986.

This act, commonly known as Proposition 65 (Prop 65), establishes a list of chemicals which the state of California's risk assessment process has determined to present a risk of cancer, birth defects, or other reproductive harm.

The compliance issue stems from nickel, which is a key alloying element in the production of stainless steel. Stainless steel and high-nickel alloys cannot be made without using nickel.

R&G Springs Co. will continue to monitor Proposition 65 regulations for any changes and communicate any safety-related issues to our customers.

Sincerely,

Michael Hudec

President
