RE: Per- and Polyfluoroalkyl Substances ("PFAS")

Dear Valued Customer,

R&G Springs recognizes the impacts PFAS (per- and polyfluoroalkyl substances) have on humans and the environment and follows changes in the regulatory environment with regards to PFAS. PFAS has been used throughout many types of industries, and incorporated into thousands of commercial and consumer products, many of which are commonly found in the home.

R&G Springs' products do not contain PFAS materials, nor do we source materials that contain PFAS. R&G Springs Co. is committed to complying with all laws and regulations governing the use of PFAS and we continue to actively monitor changes.

Sincerely,

Michael Hudec

President
